# Doctor of Biblical Business Economics

..... 68 units

The Purpose Doctor of Biblical Business Economics is a field in applied economics which uses economic theory and quantitative methods to analyze business enterprises and the factors contributing to the diversity of organizational structures and the relationships of firms with labour, capital and product markets. A professional focus of the journal Business Economics has been expressed as providing 'practical information for people who apply economics in their jobs.'

Biblical Business economics is concerned with economic issues and problems related to business organization, management, and strategy. Issues and problems include: an explanation of why firms emerge and exist; why they expand: horizontally, vertically and spacially; the role of entrepreneurs and entrepreneurship; the significance of organizational structure; the relationship of firms with the employees, the providers of capital, the customers, the government; the interactions between firms and the business environment.

## Degree Requirements

- Successfully complete a minimum of 60 units of coursework determined by the student and the student's Doctoral Committee from the Doctor of Biblical Business Economics course list and any other coursework prescribed by the student's Doctoral Committee with a minimum cumulative grade point average of 3.0 on a 4.0 scale.
  - . Successfully complete the Integrative Review
  - . Successfully complete 60 units of concentrated course work.

## Doctor of Christian Leadership

..... 68 units

The Doctor of Christian Leadership is designed to provide qualified students the opportunity to achieve a high level of excellence in the practice of ministry. Christian leadership is no finer example for Christian leadership than our Lord Jesus Christ. He declared, 'I am the good shepherd. The good shepherd lays down his life for the sheep' (John 10:11). It is within this verse that we see the perfect description of a Christian leader. He is one who acts as a shepherd to those 'sheep' in his care.

When Jesus referred to us as 'sheep,' He was not speaking in affectionate terms. In truth, sheep rank among the dumbest animals in creation. A stray sheep, still within earshot of the herd, becomes disoriented, confused, frightened, and incapable of finding its way back to the flock. Unable to ward off hungry predators, the stray is perhaps the most helpless of all creatures. Entire herds of sheep are known to have drowned during times of flash flooding even in sight of easily accessible higher ground. Like it or not, when Jesus called us His sheep, He was saying that without a shepherd, we are helpless.

### Degree Requirements

- Successfully complete a minimum of 60 units of coursework determined by the student and the student's Doctoral Committee from the Doctor of Christian Leadership course list and any other coursework prescribed by the student's Doctoral Committee with a minimum cumulative grade point average of 3.0 on a 4.0 scale.

## Doctor of Healing Ministry

..... 68 units

The Doctor of Healing Ministry is deigned to pioneer the biblical effective way of Christian healing ministry. That is primarily composed of practical aspects of pastoral ministry characterized by a holistic approach combining preaching, praying, and healing. It will be done through research, education, and training. Ultimately, the purpose of this program is to prepare a divinely-called servant and Spirit-filled leader of healing ministry for establishing the Kingdom of God in hearts of sinners. Jesus' ministry is composed of teaching, preaching, and healing. In this program, students will seek the ways of healing done by Jesus Christ in the four Gospels. So emphasis is placed on practical ways of healing. Also, we emphasize the growth of personal and interpersonal relations in faith with establishing a Biblical theology of healing.

### Degree Requirements

- Successfully complete a minimum of 60 units of coursework determined by the student and the student's Doctoral Committee from the Doctor of Healing Ministry course list and any other coursework prescribed by the student's Doctoral Committee with a minimum cumulative grade point average of 3.0 on a 4.0 scale.

## Doctor of Religious Art

..... 68 units

The Doctor of Religious Art is deigned to pioneer the biblical effective way of Christian healing ministry. The Doctor of Religious Art provides a broad overview of the Christian arts areas, and a subject concentration in a single area of Christian vocation. In every Doctor of Religious Art course, learners will encounter Biblical applications within the course content. Courses in the Doctor of Religious Art program are devoted to the study of biblical truth in light of contemporary issues and ideas, and to raise future Christian art leaders in this digital age. Doctor of Religious Art courses cause learners to encounter the very best thinking in the subject areas with which the program deals: Humanities, arts, social sciences, and science and culture. Every course in the Doctor of Religious Art program integrates a scriptural perspective based on the truth of the Bible. Learners can expect to encounter God's Word or a Christian worldview in every course. Students will deepen their knowledge of the subject area and to prepare themselves as professionals in religious art areas

## Doctor of Religious Literature

..... 68 units

The Doctor of Religious Literature course is to provide students with fundamental understanding of various literary genres in view of creative writing. Through a study of poetic theories of Western and Oriental classics, students in the course will develop their poetry writing abilities, and the origin and its development, characteristics, structure, and kinds of the novel are the main points of this course. Students will be encouraged to use the knowledge of these elements in their novel writing. Historical survey of critical theories will provide students with proper understanding of literary criticism in general and will suggest a way of finding their own method of approaching literary works.

### Degree Requirements

- Successfully complete a minimum of 60 units of coursework determined by the student and the student's Doctoral Committee from the Doctor of Religious Literature course list and any other coursework prescribed by the student's Doctoral Committee with a minimum cumulative grade point average of 3.0 on a 4.0 scale.

# Doctor of Religious Psychology

..... 68 units

Takes religious phenomena as objects of inquiry either to be described or to be explained by principles of psychology. Relationships between psychology and religion are complicated by the fact that little consensus exists on the meaning of either of these terms. Psychology is less a single science than a generic discipline defined by the methods and procedures that, when consensually shared, identify the various schools of psychology. These schools have produced largely distinct literatures and research traditions that collectively constitute the current psychology of religion. Each school is itself heterogeneous so that even in identifying a particular school it is best to refer to it in the plural.

## Degree Requirements

## Doctor of Theology

..... 68 units

The Doctor of Theology degree is an advanced academic degree intended to prepare students for professional careers in teaching, writing, and scholarship in academics (colleges, universities or seminaries), in publishing, religious organizations, social service organizations, or foundations. The Doctor of Theology program emphasizes theological studies in the context of 'secular' university research disciplines and is characterized by a series of careful balances. Students are given considerable latitude to design their programs to meet specific needs and interests. This freedom is exercised under the guidance of the student's Doctor of Theology doctoral committee, who establish examination and dissertation protocols which form the structure of the student's program. The Doctor of Theology program's freedom and flexibility encourages students to work on fresh issues and with emerging methodologies. The School of Theology's standard of scholarship represents a balance of committed study of the theological disciplines and perspectives. The Doctor of Theology program students study Christian traditions either from within (as a member) or with a deep respect for the beliefs and practices of the tradition.

### Degree Requirements

- Successfully complete a minimum of 60 units of coursework determined by the student and the student's Doctoral Committee from the Doctor of Theology course list and any other coursework prescribed by the student's Doctoral Committee with a minimum cumulative grade point average of 3.0 on a 4.0 scale.

## Doctor of Yogic Studies

..... 68 units

The Doctor of Yogic Studies program can be taken in class or through guided independent studies by International Lordland University. The goals of yoga are varied and range from improving health to achieving moksha. A serious practitioner of Yoga (someone pursuing the higher spiritual and religious goals of Yoga) takes upon themselves a life of austere self-discipline common to nearly all forms of mystical and religious life. The practices that constitute this self-disciplined life are called in yoga yama and niyama. This self-discipline is the 'yoke' that one puts upon oneself for the purpose of attaining moksha. An alternative definition is that Yoga is the method of yoking, or unifying, the lower egoistic personality to the higher via a process of sublimation.

### Degree Requirements

- Successfully complete a minimum of 60 units of coursework determined by the student and the student's Doctoral Committee from the Doctor of Yogic Studies course list and any other coursework prescribed by the student's Doctoral Committee with a minimum cumulative grade point average of 3.0 on a 4.0 scale.

  - . Successfully complete 60 units of concentrated course work.
  - . Successfully complete 8 units of the Dissertation.
  - . Successfully complete the degree requirements within the time limit.

### Time Limit

The Doctor of Yogic Studies program must be completed within 4 years from the time

the student commenced the first course, as a regular student, which applies to the degree requirements. This time limit, at the option of the university, may be extended due to special extenuating circumstances.

## Prerequisites for the Doctor of Yogic Studies

Total: 68 units

A student's academic transcripts will be evaluated and, if any prerequisites are lacking, appropriate courses must be taken. All courses are 4 units each.

Coursework:	60 units
Dissertation	8 units

## Course Descriptions

### ***DCL101 Principles of Leadership***

***4 units***

This course is designed to give an analysis of the tasks, styles and models of leadership according to the Bible and the church in a context for Christian leadership.

### ***DCL102 Survey of Christian Leadership***

***4 units***

An analysis of the tasks, styles and models of leadership, giving special emphasis to the biblical guidelines and church context of Christian leadership.

### ***DCL103 General Theories on Leadership***

***4 units***

A critical survey of theories on leadership in history from Plato's Republic to the contemporary leadership studies. The history of leadership and contributions from various disciplines will be included. It will also explore biblical perspectives on leadership, including such topics as leadership styles: authoritarian, dictatorial or democratic.

### ***DCL104 Essential Traits of Leadership***

***4 units***

All the essential traits of leadership, such as wisdom, integrity, courage and creativity will be reviewed from the biblical perspective, and John 10:11 will be discussed as the key essence of Christian leadership. The spirit of self-sacrifice is the key in differentiating true leadership from false ones.

### ***DCL105 Vision and Goal-setting in Christian Leadership***

***4 units***

The belief in a person's God-given mission to exercise his or her leadership for the advancement of His kingdom must be translated into a clear vision and SMART (specific, measurable, attainable, realistic, and tangible) goals, and these goals must be implemented period.

***DCL106 Christian Leadership in Management*** ***4 units***

Personnel management, crisis management, temptation management, management of rebellions, and management of failures will be extensively studied on the basis of biblical examples. Especially, the Jethroian management will be expatiated in personnel management (Exodus 18:1-23).

***DCL107 Global Strategic Leadership*** ***4 units***

This course provides an understanding of global issues; cross-cultural concepts focusing on people groups, values, and how to build teams of diverse while respecting local values; and maintaining unity of focus and accomplishment.

***DCL108 Spiritual Christian Leadership*** ***4 units***

Recognize biblical qualities in the lives of people committed to furthering the coming of the Kingdom of God.

***DCL109 The Leader as Agent and Students*** ***4 units***

Students examine leadership and organizational theory from the three perspectives of theology, psychology and sociology studying at least one theory in depth and reporting an exhaustive literature review of all that we know about the theory and demonstrate appropriate scholarly writing technique. In addition, students explore their own leadership development within a scriptural framework.

***DCL110 Communication and Decision Making*** ***4 units***

Students examine organizations through the use of communication and values audits and explore how leaders affect both "real" and virtual organizations through decision-making. In addition to the organizational diagnosis and development of the audits, students hone research skills by writing a full research proposal requiring the understanding of and ability to write about researchable problems, concepts that explain the problem, the extant literature relating to the problem, appropriate research and data collection methods as well as appropriate analysis techniques.

*Let's go to the Power Life!..... International Lordland University*

***DCL111 Global Dimensions of Leadership Today 4 units***

Students examine the role of the leader in a global and/or multi-national organization with a focus on the role of the leader in the future. This requires that students take scripturally sound current thinking about leadership concepts and extrapolate into the future and determine the future relevance of current thinking as well as look for future leadership styles and methods that will be culturally relevant in a global setting.

***DCL112 The Human Focus of Leadership 4 units***

Provides a framework for studying strategic leadership as it explores the role of followers interacting with other followers and the organization's leader. Examine and understand group formation and development both in the face-to-face organizational environment, as well as the virtual organization. Through this examination, discover the different role that communication plays in the virtual environment. Discuss various concepts of transformational leadership that result in leaders developing future leaders of their followers. In addition, examine the role of self-development and building accountability among leaders in a support network.

***DCL113 Global Futures & System Dynamics 4 units***

Investigates how the world system of 2050 may be a dynamic arrangement of interconnected parts, and how developing countries of the global South will fare within the global economy. Students examine existing forecasts and use computer models to generate alternative scenarios in demographic, environmental, economic, and socio-political domains. Students gain practical experience in using system dynamics to help global organizations in their policy-making process.

***DCL114 Theological Foundations for Christian Education 4 units***

An exploration of the theological perspectives concerning the educational questions of content, teacher, pupil, context, methodology, and objectives. It will examine the ways in which differing theological concepts affect the nature and purpose of Christian education practices.

***DCL115 History and Philosophy of Christian Education 4 units***

This course is a broader study of the historical development of educational thought and practice in the church, with electives on the emerging and contemporary educational philosophies

***DTH101 Biblical Chronology 4 units***

A study of the chronological questions related to such biblical area as Genesis, the Kingdom era, the Gospels, Acts and the Apostles.

***DTH102 The Pastoral Epistles 4 units***

An exposition of 1 and 2 Timothy and Titus with emphasis on interpretive problems and relevance to contemporary church life.

***DTH103 Textual Criticism of the New Testament 4 units***

A brief history of textual criticism; the relative value of manuscripts; major theories of textual criticism; application of critical methods to selected passages.

***DTH104 Textual Criticism of the Old Testament 4 units***

The theory and practice of textual criticism with special attention the scrolls of Qumran and the Septuagint.

***DTH105 The Life of Christ 4 units***

A study of Christ's earthly life using a harmony of the Gospels.

***DTH106 Parables 4 units***

The principles of interpretation of Christ's parables, their use in contemporary preaching, and eschatological considerations.

***DTH107 Revivalism 4 units***

Biblical principles and examples of revival' consideration of revivals throughout Christian history with emphasis upon American revivalism and evangelization.

*Let's go to the Power Life!..... International Lordland University*

***DTH108 Pauline Theology 4 units***

A study of the major doctrines enunciated in Paul's epistles.

***DTH109 Pietism 4 units***

Early expressions of pietism in Roman Catholicism; Protestant pietistic movement; impact of pietism upon; modern evangelicalism.

***DTH110 The Doctrine of Sanctification 4 units***

Biblical emphasis; historical preview; implications for Christian counseling.

***DTH111 Theology of Missions 4 units***

Theology of missions and evangelism from a reformed perspective; principles of personal and corporate evangelism and cross-cultural communications of the Gospel.

***DTH112 Theology and Sociology of the City 4 units***

An examination of the city in biblical and theological perspective and an introduction to the sociology of urban systems, structures, and conditions that create problems and/or provide hope.

***DTH113 Theology and the Environment 4 units***

Explores the relationships between Christian theology- with a special emphasis on Catholic social teaching- and concern for the environment. Criticisms of Christian theologies in accordance with new ecological insights will also be suggested.

***DTH114 Theological Issues in the Contemporary Ecumenical Movement 4 units***

Implications of recent ecumenical discussion for Ecclesiology and Christology, and an analysis of ecumenical statements on sacraments, ministry, mission and community.

***DTH115 Church Management 4 units***

Biblical principles and practical aspects of church management; special attention to church officers and assemblies; the pastor's role; purpose and procedures of biblical church

discipline.

***DTH799 Dissertation***

***8 units***

Individual study in any topic relevant to business administration. The topic must be approved by the dissertation committee and the student must follow the steps as advice by his or her advisor. A student must make a progress report and present his or her work to the dissertation committee and in a seminar. Finally, the student must pass the oral defense of the dissertation.

***DBE101 Financial Accounting***

***4 units***

Helps students become informed users of firms' external financial reports. The basic structure and contents of such reports and the process by which they are prepared will be studied. Discussion topics will include what items are included in the reports, how such items are measured, and how various economic events affect them. An understanding of what can be inferred from the reports about past performance, present position, and future prospects of the firm will be developed.

***DBE102 Managerial Accounting***

***4 units***

Introduces students to the basic terminology and concepts of cost accounting, and provides an introductory coverage of product costing, cost allocation, budgetary control, responsibility accounting, and the use of cost information in resource allocation and other managerial decisions. Textbook material and real-world examples are used to engage students in extensive problem-solving.

***DBE103 Intermediate Financial Reporting***

***4 units***

Covers the conceptual framework of financial accounting and its influence on Generally Accepted Accounting Principles, with special emphasis on the valuation of assets and measurement of income. Requirements include reading the original pronouncements on GAAP, making oral presentations, and writing short position papers on various accounting issues of current interest. Required for all accounting majors.

*Let's go to the Power Life!..... International Lordland University*

***DBE104 Financial Statement Analysis***

***4 units***

Financial statement analysis focuses on the evaluation of publicly traded company financial statements and related note disclosures as well as the correlation of this historical financial data with the company's stock prices. This course helps students develop a systematic approach to analyzing reported financial data and understanding the underlying risks and possible inconsistencies across companies. Requirements of the course include interim exams and written and oral presentations of analysis.

***DBE105 Advanced Financial Accounting***

***4 units***

This course covers topics that are of particular interest to financial report preparers and auditors. Special emphasis is placed on accounting for business combinations and consolidated financial reporting. Other topics include international accounting, accounting for partnerships, and accounting by fiduciaries.

***DBE106 Strategic Cost Management***

***4 units***

The quality, timeliness and credibility of the cost information used in corporate decision-making can have a significant impact on value creation. This is because cost information is important not only in strategy formulation and in the development and implementation of action plans that link strategies to value creation, but also because such data serve as measures of financial performance for products, processes, organizational sub-units and managers. In particular, product and service cost estimates have a major influence on corporate strategic decisions such as pricing, resource allocation, product development, supply chain design and customer focused management. In addition, product costs are informative signals of operational efficiency. Therefore, they constitute financial measures of the success of management actions such as continuous improvement and business process reengineering. Over-aggregate or obsolete cost systems can have a significant adverse impact on cost reduction in particular and overall corporate strategy and competitiveness in general.

***DBE107 Accounting Information Systems***

***4 units***

Deals with both the design and implementation of accounting-information systems and

their ability to collect data on the activities of the organization, to accumulate and summarize it, and to make the information available to managers for analysis, decision making, and control. Special emphasis is placed on the problems inherent to this effort. This course is required for all accounting majors.

***DBE108 Auditing*** ***4 units***

Introduces the auditing process and profession. Main topics include the nature and purpose of auditing, auditing standards, professional conduct, auditor legal liability, and approaches in auditing financial statements. Emphasizes a risk-based approach to selecting appropriate auditing techniques. Examines the auditor's decision process relating to internal control assessment, audit sampling, and obtaining audit evidence about financial accounts. Also examines the extent of the auditor's responsibility to uncover fraud. This course is required for all accounting majors.

***DBE109 Individual Tax Accounting and Planning*** ***4 units***

This course focuses on individual tax return preparation and planning. Students will learn how to calculate the taxes associated with a variety of personal, investment, property, and sole-proprietorship transactions. Concepts will be reinforced through the preparation of actual tax returns that reflect different combinations of such transactions. Students will develop tax planning skills by considering how various transactions can be restructured to minimize the current or future tax liability.

***DBE110 Managerial Economics*** ***4 units***

Analysis of economic factors affecting decisions made by business firms. Demand and cost analysis, and alternative policies from the firm's point of view.

***DBE111 Intermediate Macroeconomics*** ***4 units***

Analysis of economy with attention to the business cycle, output of goods and services(GNP), inflation, unemployment, and government's fiscal and monetary policies. How the economy affects individuals and firms and how to deal effectively with the economic environment.

*Let's go to the Power Life!..... International Lordland University*

***DBE112 Financial Markets***

***4 units***

Analysis of the structure and functions of the money and capital markets; the saving-investment process and financial intermediaries; supply and demand for lendable funds and the level and structure of interest rates, role of Federal Reserve and Treasury in money market developments.

***DBE113 Competing in the Global Economy***

***4 units***

Examines the global environment for business and the challenges facing managers in this environment. Explores the implications of the common phrase 'think global-act local.' 301.

***DBE114 International Finance***

***4 units***

Asset choice and institutional operations in international finance, foreign exchange problems, the impact of international financial problems and operations on business, short- and long-term international financing.

***DBE115 Special Topics in Business Economics***

***4 units***

Study and research on topics of current concern to faculty and students. Only offered when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings.

***DBE101 Financial Accounting***

***4 units***

Helps students become informed users of firms' external financial reports. The basic structure and contents of such reports and the process by which they are prepared will be studied. Discussion topics will include what items are included in the reports, how such items are measured, and how various economic events affect them. An understanding of what can be inferred from the reports about past performance, present position, and future prospects of the firm will be developed.

***DBE102 Managerial Accounting***

***4 units***

Introduces students to the basic terminology and concepts of cost accounting, and provides an introductory coverage of product costing, cost allocation, budgetary control,

responsibility accounting, and the use of cost information in resource allocation and other managerial decisions. Textbook material and real-world examples are used to engage students in extensive problem-solving.

***DBE103 Intermediate Financial Reporting*** ***4 units***

Covers the conceptual framework of financial accounting and its influence on Generally Accepted Accounting Principles, with special emphasis on the valuation of assets and measurement of income. Requirements include reading the original pronouncements on GAAP, making oral presentations, and writing short position papers on various accounting issues of current interest. Required for all accounting majors.

***DBE104 Financial Statement Analysis*** ***4 units***

Financial statement analysis focuses on the evaluation of publicly traded company financial statements and related note disclosures as well as the correlation of this historical financial data with the company's stock prices. This course helps students develop a systematic approach to analyzing reported financial data and understanding the underlying risks and possible inconsistencies across companies. Requirements of the course include interim exams and written and oral presentations of analysis.

***DBE105 Advanced Financial Accounting*** ***4 units***

This course covers topics that are of particular interest to financial report preparers and auditors. Special emphasis is placed on accounting for business combinations and consolidated financial reporting. Other topics include international accounting, accounting for partnerships, and accounting by fiduciaries.

***DBE106 Strategic Cost Management*** ***4 units***

The quality, timeliness and credibility of the cost information used in corporate decision-making can have a significant impact on value creation. sub-units and managers. In particular, product and service cost estimates have a major influence on corporate strategic decisions such as pricing, resource allocation, product development, supply chain design and customer focused management. In addition, product costs are informative signals of operational efficiency. Therefore, they constitute financial measures of the success of management actions such as continuous improvement and business process reengineering. Over-aggregate or obsolete cost systems can have a significant adverse impact on cost reduction in particular and overall corporate strategy and competitiveness in general.

***DBE107 Accounting Information Systems 4 units***

Deals with both the design and implementation of accounting-information systems and their ability to collect data on the activities of the organization, to accumulate and summarize it, and to make the information available to managers for analysis, decision making, and control. Special emphasis is placed on the problems inherent to this effort. This course is required for all accounting majors.

***DBE109 Individual Tax Accounting and Planning 4 units***

This course focuses on individual tax return preparation and planning. Students will learn how to calculate the taxes associated with a variety of personal, investment, property, and sole-proprietorship transactions. Concepts will be reinforced through the preparation of actual tax returns that reflect different combinations of such transactions. Students will develop tax planning skills by considering how various transactions can be restructured to minimize the current or future tax liability.

***DBE110 Managerial Economics 4 units***

Analysis of economic factors affecting decisions made by business firms. Demand and cost analysis, and alternative policies from the firm's point of view.

***DBE111 Intermediate Macroeconomics 4 units***

Analysis of economy with attention to the business cycle, output of goods and services(GNP), inflation, unemployment, and government's fiscal and monetary policies.

How the economy affects individuals and firms and how to deal effectively with the economic environment.

***DBE112 Financial Markets***

***4 units***

Analysis of the structure and functions of the money and capital markets; the saving-investment process and financial intermediaries; supply and demand for lendable funds and the level and structure of interest rates, role of Federal Reserve and Treasury in money market developments.

***DBE113 Competing in the Global Economy***

***4 units***

Examines the global environment for business and the challenges facing managers in this environment. Explores the implications of the common phrase 'think global-act local.' 301.

***DBE114 International Finance***

***4 units***

Asset choice and institutional operations in international finance, foreign exchange problems, the impact of international financial problems and operations on business, short- and long-term international financing.

***DBE115 Special Topics in Business Economics***

***4 units***

Study and research on topics of current concern to faculty and students. Only offered when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings.

***DCM101 Research Methods***

***4 units***

Presents a basic grounding in research methods available to business scholars. Students will examine, discuss, and use these methods in class assignments.

***DCM102 Advanced Research Methods***

***4 units***

Uses a structured environment to assist with the preparation of the student's dissertation proposal. This course should be taken just prior to the preparation of your dissertation.

*Let's go to the Power Life!..... International Lordland University*

***DCMI03 Graduate Seminar***

***4 units***

Presentations and discussions of literature dealing with the theory and practice of various disciplines. Includes the preparation and presentation of students' original work.

***DCMI04 Contracts***

***4 units***

This course teaches the basic principles of contract formation. Students will learn about contract enforceability, breach and remedies for breach, third-party interests and choice of law.

***DCMI05 Advanced Paradigms in Business Management***

***4 units***

The meaning and importance of paradigms to business research; pervasive paradigms such as positivism and interpretivism in business and management research areas; issues related to assessing scholarly research and theory building; conceptualization and presentation of a research model; practical skills for applying knowledge of continuous improvement processes in business and management.

***DCMI06 Advanced Reading in Business Administration***

***4 units***

Advanced reading on currently important topics of interest within the business Administration community.

***DCMI07 Business Practice and Case Studies***

***4 units***

Issues relating to specific case studies; issues that are covered more generally in other courses within the Doctor's program; leverage awareness of generic questions and business practices at the level of specific organizations; illustration of general principles through specific experience; an emphasis on in-class participation and on real workplace situations.

***DCMI08 Special Topics in Business Administration I***

***4 units***

Special topics on currently important issues within the business administration community.

***DCMI09 Special Topics in Business Administration II***

***4 units***

Special topics on currently important issues within the business administration community.

***DCM110 Special Topics in Business Administration III 4 units***

Special topics on currently important issues within the business administration community.

***DCM111 Business Competitive Intelligence 4 units***

This course describes intelligence and outlines its functions for the business world. The course advocates a shift from mere acquisition of adversaries' secrets to a deeper understanding of developments throughout the total environment in which you and your adversaries are operating. The course examines the design and management of intelligence systems able to cope with change, cope with the global arena and cope with the information glut impacting on the modern business. Topics will include: information operations, knowledge management, information environment, design and management of intelligence systems, e-business issues, security issues, and the capture and dissemination of information and knowledge.

***DCM112 Web Technologies for Business 4 units***

This course introduces students to the key technologies for business use of the World Wide Web. The web is being used increasingly as a common delivery method for the supply of business functionality to an organization's internal staff, customers and business partners. Familiarity with web technologies is one of the key criteria for the efficient and effective functioning of a modern business.

***DPY101 Making & Problem Solving 4 units***

Study of critical thinking skills through an understanding of psychological factors. Practical strategies are explored in relation to hypothesis formation and evaluation, decision making, problem solving and creativity, reasoning, and memory. Applications are emphasized.

***DPY102 Cognitive Neuroscience 4 units***

Explores brain systems responsible for cognitive processes in normal humans, integrating theory from texts and current research from original sources.

*Let's go to the Power Life!..... International Lordland University*

***DPY103 Perception***

***4 units***

Empirical and theoretical approaches to the psychology of perception with an emphasis on vision. Topics include the perception of form, color, depth and motion as well as the effects of attention and experience.

***DPY104 Developmental Psychology***

***4 units***

This class examines physical, socio-cultural, intellectual and emotional aspects of growth and development from conception to death. Students are introduced to theories, methods, concepts, and issues relevant to the scientific study of development across the lifespan. Topics covered include: the major theoretical and methodological issues in developmental psychology, social, cognitive, and physical development in infancy, childhood, adolescence, and adulthood.

***DPY105 Developmental Psychology Lab***

***4 units***

Various advanced research laboratory exercises and training in experimentation and data analyses.

***DPY106 Psych of Thought & Language***

***4 units***

Explores the dynamic interface between psychological thought and language throughout development. Focuses on early expression and understanding of meaning in infants and young children and on analysis of everyday conversations and activities of children as a window on developing understandings of the world.

***DPY107 Development of Humor***

***4 units***

What is humor and how does it develop? Babies produce their first social laugh at 3-4 months of age and people continue to laugh throughout their lifespan. We will examine humor from a variety of perspectives, including social, cognitive, and biological to understand where humor comes from, how it develops, and the purposes it serves.

***DPY108 Developmental of Humor Lab***

***4 units***

Students will examine and produce humor projects.

***DPY109 Sports and Childhood*** ***4 units***

We will examine the psychology of sports participation and observation on children and adolescents. Topics include: gender representation of fans and participants on teams; identity development of athletes; influences of family expectations of sport participation; and the ability of sports to bring together or pull apart countries, families, and friends.

***DPY110 Sports and Childhood Lab*** ***4 units***

Students will conduct projects examining sports and childhood.

***DPY111 Cognitive Development*** ***4 units***

Cognition in children from infancy through adolescence. Basic and current research on children's understanding of the social and physical world. Focus on major theoretical perspectives: Piaget's constructivist approach, information processing approach, and sociocultural approach.

***DPY112 Social & Emotional Development*** ***4 units***

An examination of contemporary theory and research on social and emotional psychological development from infancy through childhood.

***DPY113 Social Psychology*** ***4 units***

Social psychology is a scientific area in the discipline of psychology that seeks an understanding of how people feel, think, and behave in social situations. Students are introduced to the theories, research methods, and seminal findings of social psychology. Topics covered include: attitudes, perceptions of others, social influence, social identity and the self, attraction, aggression, and intergroup dynamics.

***DPY114 Theories of Personality*** ***4 units***

Survey of the major contemporary theories of personality. Theoretical positions are compared and critically examined along various significant dimensions, including their relationships to the total field of psychology. Methods of personality assessment as related in theory construction.

*Let's go to the Power Life!..... International Lordland University*

***DPY115 Social Psychology/ Gender***

***4 units***

Explores the ways in which social psychological processes are influenced by societal norms around notions of gender. In doing so, students will be introduced to how culture, social class, and sexuality shape people's experiences of what it means to be a woman or man in contemporary U.S. society. The course also includes discussions of how power dynamics influence people's understanding of gender from a social psychological perspective.

***DSW101 Special Areas of Social Welfare***

***4 units***

Consideration of a topic or issue in the field of social work knowledge or practice is selected on the basis of faculty and student interest.

***DSW102 Applied Statistics***

***4 units***

Basic introduction to statistical methods and tests. Specific course topics include measurement, probability, distribution, tables and graphs, estimation and hypothesis testing, and linear models. Emphasis is placed on interpreting and presenting statistical outputs, including reports generated by computer programs.

***DSW103 Social Welfare Policy and Services***

***4 units***

Introduction to the analysis of social policies and programs. Based upon frameworks of policy dimension, values, and knowledge, selected social policies are examined within a historical and contemporary context. The principles of social and economic justice are used in analyzing social policies and programs. Attention given to the differential impact of these policies and services on at-risk and oppressed populations.

***DSW104 Micro Practice in Social Work***

***4 units***

Introduces the values, models, methods, and processes of social work practice with individuals, families, groups, and at-risk and oppressed populations. History, structure, and values of the profession, the agency context of practice and the importance of basing practice decisions on the interventions with documented effectiveness. Emphasizes a generalist and systems perspective, beginning interviewing and relationship skills, problem

assessment, goal setting, and contracting with special attention on attributes of the client system such as race, gender, sexual orientation, age, ethnicity, and socioeconomic class.

***DSW105 Supervision and Consultation 4 units***

The philosophy, principles, and methods involved in supervisory processes; supervision and consultation as administrative arrangements for program implementation; educational and administrative components; the supervisor-worker relationship; differences between the supervisory process of professional and paraprofessional personnel, differentiation between supervision and consultation processes and relationships.

***DSW106 Staff Development 4 units***

Staff development as an organizational function in relation to agency goals; planning development programs through job and task analysis and skill measurement; educational methods applied to staff development; and the development, implementation, and evaluation of training programs.

***DSW107 Introduction to Health Policy 4 units***

An overview of the evolution and role of health policies and institutions in the United States with particular emphasis on the political, economic, organizational, demographic, and professional factors that have influenced them. Special attention will be given to the elderly, mentally ill, and developmentally disabled.

***DSW108 Health Needs: Health Care Systems and Social Work 4 units***

Life cycle characteristics of health, illness, and disability affecting individual, family, and community: indepth study of selected prototypical health needs and illnesses. Emphasis on provider/consumer participation in health care, advocacy, and teamwork. Introduction to our health care system service delivery and dilemmas. Critical influence of government and financing on practice.

***DSW109 Field Instruction 4 units***

Introduces social work practice and provides the initial experience of practice in a social work setting. Students are placed in a social service agency where, under a qualified

*Let's go to the Power Life!..... International Lordland University*

instructor, they are assigned experiences which enable them to apply, integrate, and extend the theoretical knowledge learned in the classroom.

***DSW110 Health Policy Analysis*** ***4 units***

Analytic approaches for understanding the dynamics of current health care systems focusing on cost-benefit, resource allocation, technological forecasting, simulation, and financing.

***DSW111 Introductory Research Methodology*** ***4 units***

Introduction to research methods in social work including content on defining social work research problems, developing and testing hypotheses, the logic of causal inference, sampling, measurement (including reliability and validity), basic skills in data analysis and research utilization, the ethics of research, and research issues concerning human diversity. Emphasizes methods and content relevant to social work practice and the problems of social welfare.

***DSW112 Community Mental Health*** ***4 units***

Elective course in community mental health. Devoted to identification and analysis of the programs, policies, theories, principles, issues, and professional roles associated with a community mental health approach. After an overview of how our present programs and philosophy evolved, examination in detail of the various structural aspects of community mental health. Development and utilization of an analytic framework to assess a community mental health philosophy. Makes considerable use of public health concepts and principles. Examination of social work roles and role problems associated with a community mental health approach.

***DWD101 Korean Dance*** ***4 units***

Understanding principle of korean dance based on learning basic rhythm and pace.

***DWD102 Modern Dance*** ***4 units***

Learning various movement languages from expressive body works which based on

principle of modern dance movements.

***DWD103 Ballet***

***4 units***

Holding rationality of body training from teaching in phase and controlling standard movement of ballet in order to correcting right postures and muscles.

***DWD104 Dance literacy***

***4 units***

Understanding essential principle of dance to reconstruct dance theory from analyzing dance history.

***DWD106 History of Dance***

***4 units***

This course aims to introduce the history of the western dance to students by providing a general view on the development of the human act of dancing diachronically. The introduction of various western dances from the primitive forms in the ancient times through the developed and complete format of the ballet in the 19th century is to encourage students to obtain a better understanding of dance, especially those developed in the western society as a human art form, from looking closely at the different kinds of dances that have been invented and evolved through the history of the mankind with a culture-oriented point of view and analyzing the causes, impacts and historical implications of their changes. As a result, the historical overview is to get students better equipped with the knowledge of and insights into dance as world citizens.

***DWD107 Commonness Korea Dance***

***4 units***

Traditional dance with percussion instrument; practice Korean traditional dance, playing the percussion instrument.

***DWD108 Musical Dance***

***4 units***

Modern dance movement based on the diversity of the musical artistry of dance and pop music made in meeting with a character based on choreography, with its focus on movement and vocal training, dance and multi-musical approach is easiertolearntobeamusicaldance.

*Let's go to the Power Life!..... International Lordland University*

***DWD109 Technic of Modern Dance***

***4 units***

Techniques for modern dance; develop understanding of various works of dance with promoted expressiveness and basic techniques.

***DWD110 Appreciation of Dance work***

***4 units***
